May is Mental Health Awareness Month
This past year presented so many different challenges and obstacles that tested our strength and resiliency. We have had to cope with situations we never even imagined, and a lot of us struggled with our mental health as a result. The good news is that there are tools and resources available that can support the well-being of individuals and communities.

Now, more than ever, we need to combat the stigma surrounding mental health concerns. May is Mental Health Awareness Month and Samaritan Center is highlighting what individuals can do throughout their daily lives to prioritize mental health, build resiliency, and continue to cope with the obstacles.
